

“

Tina has highly developed facilitation skills. This is not only in the “technical” aspects of design and management of programs, but in presentation, in providing frameworks and encouragement for applied learning, in building personable relationships with participants, and in fearless but sensitive confrontation of the issues when necessary.

EQ-i 2.0[®] Emotional Quotient-Inventory

The first scientifically validated and most widely used
Emotional Intelligence assessment in the world

Backed by more than 20 years of research

www.drinalambert.com.au

What is EQ-i 2.0?

The Emotional Quotient Inventory (EQ-i 2.0[®]) is an individual's self-report of their social and emotional strengths and weaknesses.

By identifying the key issues that need improvement, the client can immediately begin developing those areas.

At the same time, client strengths can be leveraged to their full potential to maximise effectiveness in daily tasks.

EQ-i 2.0[®]
assess. predict. perform.

With a Doctorate in Business Administration and over 30 years' experience, Tina has the expertise to deliver practical and strategic resolutions.

Tina works closely with executives, leaders, managers, and teams to increase self-awareness, strengthen positive behaviours and facilitate leadership development.

The Major Benefits

The EQ-i^{2.0} measures Emotional Intelligence and predicts the impact of people and the workplace in such key HR areas as:

- Hiring
- Promotion
- Alignment
- Succession planning

For Organisations

- It supports strategic objectives by developing key workforce skills
- It facilitates the creation of top-performer profiles to improve selection and training-needs analysis
- It brings performance levels into focus thereby informing strategic decision making and planning

For Coaches and Consultants

- It accelerates coaching by identifying important needs early on
- It provides a benchmark of skills to track ongoing development
- It helps to identify root causes of problems or blocks

For Individuals

- It promotes self-awareness in a range of functionally critical areas
- It places current levels of performance into perspective
- It provides a practical guide to improvement
